

## Are You Listening

**iPod Shuffle - 1Gb:** The smallest, most wearable digital music player in the world now comes in three new colours. Clip it to your sleeve, your belt or your gym shorts for a little music wherever you go. Intuitive controls let you listen without looking: play, pause, move back, skip forward and shuffle at the touch of a button. And if you think that's easy, wait till you see how iPod shuffle works with iTunes. Just drop iPod shuffle into its included dock, and with just one click, iTunes can automatically fill it with your favourite music.

**iPod Shuffle - 4Gb:** The new iPod shuffle is jaw-droppingly small. It supports multiple playlists, too. But perhaps most impressive is the new VoiceOver feature. A voice tells you what song is playing and who's performing it. It can even tell you the names of your playlists, giving you a new way to navigate your music with the controls located on the earbud cord.

**iPod Nano - 8Gb** With eight amazing colours, a new curved design, and great new features, iPod nano rocks like never before. The Genius feature finds the songs in your music library that go great together and makes a Genius playlist for you. With its built-in accelerometer, iPod nano is made to move. Give it a shake and it shuffles to a different song in your library. Turn it on its side to flip through your album art in Cover Flow. And tilt, move, and play accelerometer-inspired games (games available separately). Watching movies and video is even more fun on the sharp 2-inch screen. And your photos (up to 7,000 of them) look great in portrait or landscape view.

**iPod Touch - 8Gb** iPod touch has always been an amazing iPod. And with its groundbreaking technologies; including Multi-Touch, the accelerometer, and 3D graphics and access to hundreds of games, iPod touch puts an amazing gaming experience in the palm of your hand. It comes with new volume controls and a built-in speaker. Play hours of music. Create a Genius playlist of songs that go great together. Watch a movie. Surf the web. View rich HTML email. Find your location and get directions with Google Maps. Browse YouTube videos. And shop the App Store for games and applications.

**iPod Classic - 120Gb** Now you can take it with you. All of it. Holds up to 30,000 songs, 150 hours of video, 25,000 photos, or any combination, the new iPod classic fills your pocket with sight and sound. This quintessential silver iPod classic catches your eye with its sleek, all-metal enclosure composed of anodised aluminium and polished stainless steel. The new Genius feature creates an on-the-fly playlist of tracks in your library that go great with the song you're listening to. And Cover Flow lets you flip through your music by album artwork. Discovering new music, movies, audiobooks and podcasts is easy on the iTunes Store. To get everything into your pocket, just connect iPod classic to your Mac or PC, and iTunes transfers your music and more in one seamless sync.
