

Let's Play

Nintendo Dsi: The DSi, the third version of the Nintendo DS handheld platform, is lighter than ever and features a larger dual-screen design plus a camera and audio player.

6000 Points

Xbox 360 arcade console: The Xbox 360 Arcade System is everything you need to hit the ground running. Plug in the console and connect the wireless controller and you're playing. Then decide what extras you add and when -- it's expandable to the full Xbox 360 experience.

6000 Points

Nintendo Wii: Just pick up the Wii remote and a whole new way of playing is in your hands. Wii is a completely unique, interactive experience, all you have to do is move to play. Point, throw, swing, slash, turn, shake or twist, it's all possible with the Wii remote. Wii means fun for everyone, of any age or skill level. Wii is also much more than a games console. With the built-in Wii Channels you can surf the Internet, edit your digital photos, check the news and weather, and much more.
